EXERCISES SESSION 7

Qualifiers and Ice Cream Exercise

The second illustration of ice cream in each row below is the same. Indicate which characteristic makes that item different from the first item in that row (i.e. the qualifier which makes the second "ice cream" unique when compared to the first "ice cream.").

"Ice cream" lessons:

- (1) the choice of qualifier depends upon the context -- there is not a "right" qualifier in the abstract; and
- (2) the qualifier should just break the conflict rather than include multiple characteristics.

Qualifiers Exercise

Give the appropriate qualifier for the item in hand after you've considered the results of the searching as shown below.
